140 Mortality Schedule for Delaware (7th-10th Federal Census)
200 1850
210 1880
220
240 0.8 cf
241 4 folders (in an 16 x 20 box with 0720-000-004, 0720-000-006, 0720-000-007, and 0720-000-008)
261 The mortality schedule enumerated the deaths occurring in Delaware in the year ending June 30, 1850.
270 Mortality schedules were compiled by assistant marshals of the federal government and submitted to the Secretary of the Interior to aid in the study of health statistics in each state. Each return lists name of hundred, name of county and state, and the name of the assistant marshal who enumerated the hundred. Entries for each deceased individual include a description by age, sex, race [white, black, mulatto], and whether free or slave. Also noted was the marital status; place of birth; month of death; profession, occupation or trade; cause of death [e.g. cholera, childbirth, old age, dropsy]; and the number of days ill. For 1860 returns are included for New Castle, Kent, and Sussex Counties as well as enumerations for Duck Creek, Little Creek and Mispillion Hundreds.
For 1870 returns are available for New Castle, Kent and Sussex Counties as well as for: Kent County hundreds - Milford, Mispillion, North Murderkill, District II (Smyrna Post Office), South Murderkill, and Dover; Sussex County hundreds; North West Fork, Cedar Creek, Broadkiln, Baltimore, Seaford, Indian River, Kenton, and Little & Broad Creek; New Castle County hundreds, Pencader and Subdivision Seven.
1880 returns are available for New Castle, Kent, and Sussex Counties.
