261 The industrial census enumerated types of industry, means of production, and valuation of products in Delaware during the year ending June 30, 1850.  
270 The census schedules were compiled by assistant marshals of the federal government and submitted to the Secretary of the Interior to determine and evaluate the condition of industry in Delaware. Each return includes name of county and the name of hundred or city being enumerated. Entries for each business concerning the activities of the previous year include name of corporation, company, or individual producing articles totaling \$500 or more; type of business or manufacture engaged in or article produced (e.g., leather, railway cars, wheels, coopering, etc.); amount of capital (real estate and personal property) invested in the business; kind (e.g., hides), quantity and valuation of raw materials used; kind of motive power used (e.g., hand, steam, horse); agent; and number of male and female hands employed. Wages are enumerated by the average monthly cost of male labor and female labor. Finished products are enumerated for the year by kind, quantity, and valuation. Returns also include name and certification of assistant marshal, date of census, and recapitulations of totals. Returns are included for New Castle, Kent and Sussex Counties as well as for all hundreds within each county.
