330 Volumes are numbered sequentially 1 - 93; cases within each volume arranged chronologically by date of warrant issuance. Filmed dockets are arranged numerically by case number with many gaps in the numbering sequence. The order of the dockets themselves is sometimes haphazard.
331 Indexed within each volume, alphabetically by name of defendant.
332 Handwritten; form printed with writing.
350 Filming appears to have been in random batches, originals were destroyed after filming so researcher may have to jump from originals to film and back again.
360 Good; rust damage.
