 261 Notices sent to property owners for required nutrient management planning. A plan was required if more than 8,000 pounds of live animal weight or ten or more acres received organic or inorganic fertilizer. The Commission is responsible for managing activities involving the generation and application of nutrients in order to help improve and protect the quality of Delaware's ground and surface waters.  
 270 The notices have the name of the property owner, the mandate record number, if they will be developing a nutrient management or animal waste management plan, if the property or livestock is less than required, if the property does not require nutrient management, if a renter manages nutrient applications, if they volunteered as an early cooperator, the signature of the owner, and the date. Other related records include mailing lists, correspondence, memos, and notes.
