261 Record of patients admitted to and discharged from the Delaware State Hospital, now called the Delaware Psychiatric Center.  
270 The earliest book, 1873-1925, is divided by county or place of the patient's residence: New Castle, Kent, Sussex, and Other States. Entries show the county admission number, hospital number, name of patient, race, date admitted, date discharged, and remarks. Most remarks note that they died or were discharged.

The later two books show additional information. Admission entries includes the hospital patient number, date of admission, name of patient, county of residence, relationship or position of person who brought the person to hospital and remarks. Discharge information includes hospital patient number, date of discharge, name of patient, age, sex, county of residence, date of admission, result of treatment, who removed them and remarks.
