261 Primarily records of a study on schizophrenic patients and information collected for an accreditation survey.
270 The research on schizophrenia includes information on patients from 1900 to the 1960's. Descriptive information on the Hospital was compiled in 1978 for a Joint Commission on Accreditation of Hospitals Survey. Other studies include a lobotomy operations record book, 1938-1957; a record of "psychological autopsies" performed on people who committed suicide, 1978-1986; an "Evaluation of a Family Care Program" report, 1967; and a study of twins and psychological problems, 1959-1967.
