241 3 volumes in cfb  
261 Statistical reports on client participation in the program for the years  
FY 1983, 1986 and 1987.  
270 Computer generated reports were done by blood pressure variables such as  
age, sex, race, history of blood pressure problems, if medication used  
and if pressure elevated. Includes type of visit and referrals made and  
demographic variables including county of residence.
