241 70 rolls microfilm
261 Case files for patients with tuberculosis. State law charges the
Division of Public Health with the responsibility of preventing the
spread of contagious diseases such as tuberculosis.
270 Files may contain a chest clinic interval record sheet, chest clinic
initial record sheet, hospital progress record, pathology report,
progress notes, Center for Disease Control report of verified case of
tuberculosis, imaging report, bacteriological record, consent to release
information, consent for HIV antibody test, correspondence,
mycobacteriology drug susceptibility request/report, and
mycobacteriology record. These records may show the name of the
patient, date of birth, birthplace, social security number, race, sex,
address, phone number, date of document, name of doctor, symptoms
present, date of previous tuberculin test, contact history, test
results, treatment given, and medical history.
