261 Primarily Adult Public Assistance (APA) orders, notices, and
correspondence relating to policy changes.
270 This collection of Health and Social Services Medicaid and Medical
Assistance files capture final and emergency orders of policy
development between January 1997 and December 2006. Orders in this
collection often include issues of Delaware Register of Regulations, an
official state publication published monthly providing proposed, amended
and final regulations. Other supporting documents incorporated in the
order files include correspondence with APA, response letters from
government agencies and private interest groups, public comments, local
media advertisement orders, newspaper clippings of advertisements,
inter-office memos, and public hearing notices. These orders are filed
chronologically and appear to be numbered using two digit year and the
number of the order within that year, assigned chronologically and
separated by a hyphen (ex: 97-01 for the first order of 1997).

Programs subject to policy change in this collection include food
stamps, Temporary Assistance for Needy Families (TANF), home health,
pharmacy, copays, lab work, Medicaid eligibility, Medicare Part D
prescriptions, exempt aliens, disabilities, teen benefits, long term
care, child care, cancer care, cash assistance, income deductions, plan
waivers, claims processing, Electronic Benefit Transfer (EBT), German
Reparation payments, benefit terms, and utility allowances, among
others.
