 @ 0.19 box, 21 map drawers, 1 48" tube, 1 negative drawer.
 261 Aerial photographs used by the State Highway Department/Department of
 Transportation for road planning studies.
 27X Individual surveys cover specific areas, such as the shoreline, the
 Dover area, New Castle County, U.S. Routes 13, 113, and 301, and
 adjacent areas. The 1937-1938 survey, a state-wide survey, was taken
 originally by the U.S. Agricultural Adjustment Administration to prove
 compliance with crop reduction programs. Although all areas of the
 state are covered in the collection, New Castle County predominates.
 The only other state-wide survey is the 1997 survey.

One unique item is the DuPont Highway Stereoscopic survey. Consisting
 of two continuous photograph rolls, each 167 feet long, a three-
 dimensional view of the road was provided when studied through a special
 viewer. It is believed to be from the 1940's and covers the DuPont
 Highway from Milford to the Maryland state line.
