261 Files maintained on traffic safety investigations resulting from requests by legislators, other governmental officials, and the public. Most requests relate to speed limit reductions, placement and replacement of traffic signs, and installation of traffic or street lights.
270 The files may include memorandums, correspondence, study field worksheets, study summaries, vehicle speed studies, maps, aerial views, paper photographs, investigation work orders, DELDOT resolutions, observation sheets, petitions, police collision reports, traffic engineering studies, accident studies, and lighting studies. The records are divided by county, development name, school name, or town name.
