 261 Records relating to union contract negotiations; Delaware Correctional Center inmate complaint correspondence and a copy of the Final Report of the Task Force on Corrections Security.

Also includes instruction manuals created for the Department of Corrections to use for executions by hanging or lethal injection. The "Execution by Hanging Operation and Instruction Manual," 1990, by Fred A. Leuchter Associates, describes the background of hanging with a medical description, purpose, equipment needed, personnel required, preparation needed, and execution procedures. Appendices include a drop distance table, diazepam dosage table, and the procedure for tying a hangman's knot. The "Lethal Injection System Operation and Instruction Manual," 1987, by American Engineering, describes the equipment, procedure, operational procedure, equipment setup, use, hardware and chemicals to be used, installation, and adjustments.
