261 Record of the monthly meetings of the On-Site Systems Advisory Board. The Board is responsible for approving the licensing of on-site wastewater treatment and disposal professionals and investigating wastewater system violations.
270 The Minutes provide the date and time of the meeting, names of members present and absent, names of others present, and the business discussed. There may be meeting agendas, memorandum, correspondence, crime reports, transcripts of testimony, and Requests for Continuing Education Training forms from licensees or educators. The Board approves licenses for percolation testers, on-site wastewater treatment and disposal system designers, soil scientists, on-site wastewater treatment and disposal system contractors, system inspectors, and liquid waste haulers. The Minutes show the names of applicants that are approved or disapproved and the type of license for which they applied, appointments to the Board, background material and reports on investigations into violations, and training courses available for applicants.
