241 17 map drawers, 2 os folder, 1 oversize tube
261 Architectural drawings and aerial photographs documenting the construction and operation of landfills, transfer stations and recycling facilities.
270 Architectural drawings are for the Cherry Island landfill, Kent County landfill, Sussex County landfill, reclamation plants, transfer stations, steam generating electrical facility, oil filter cruncher, and landfill gas control. Large color aerial photographs document landfills, transfer stations, the Delaware Reclamation Plant, and the Energy Generating Facility, 1977-2004. A folder of maps showing the location or proposed locations of landfills, transfer stations, and recycling areas is also included.
