261 Collection of some 3000 surveys and maps created by Frederick Price and his son, Frederick for New Castle County government.  
270 The items in the collection include ink drawings on linen, ink and pencil drawings on paper, blueprints, whiteprints, and photostatic copies that range in size from 4.5 by 7.5 inches to 52 by 77 inches. Most of the surveys were created from their own fieldwork but some were created by tracing earlier drawings done by others. The majority of the maps document Delaware locations, with Brandywine Hundred accounting for 25% of the plans, Christiana Hundred for 26 % and Wilmington 25%. The balance of the collection is distributed among the state's three counties with New Castle making up 23%. For more information please see the Collection finding aid available in our Research Room.
