261 Treasurer's record of taxes received.
27X Contains assessment and capitation taxes to be paid. Columnar headings appearing are date of entry, name of taxable by first initial and last name, amount of assessment, county and poor, discount, net, capitation and school. Information appears only in name, assessment and capitation columns. Totals were kept for the next weekly audit by the Comptroller, who stamped, dated and signed them, to show his validation of that week's figures. Totals for county, poor and school taxes were also entered with the weeks totals. However, they were not part of the original daily entries. The record for taxes in the other hundreds or rural after 1940 includes date of entry, name of taxable, amount of assessment, capitation, light and school taxes. Comptroller's audit with county and poor totals also appears. Bulk of series is Wilmington Hundred. Prior to 1940 only 1937 contains volumes for all hundreds. For 1941, all hundreds except Wilmington Hundred are consolidated into one volume, titled "Rural". From 1937 Wilmington Hundred gives only date, name of taxpayer, assessment and capitation.

29X Dated, 1925-1940 volumes by hundreds, 1941-1953 by "Wilmington Hundred" and "Rural".
