 261 Plots of individual city blocks in the City of Wilmington created for tax assessment purposes.  
 270 Maps show the block number, names and width of surrounding streets, property boundaries in the block with lot number, width and length of each property, street numbers, right-of ways, restrictions, city boundary line, and locations of city property and parks, streams, reservoirs, businesses, schools, churches, and other tax exempt properties. Most plots are probably from the 1920's, although a few later additions are dated in the 1960's.
