 261 Projected expenses for school districts.
 27X The county board of education was required by law to prepare an itemized, detailed school budget. The budget showed the amount needed during the next year for debts service, for permanent improvement and repairs, and for the current maintenance and operation of schools. School districts submitted budgets to the secretary of the county board of education who then compiled figures and submitted the proposed budget to the Levy Court prior to their box levying meeting. (Revised DC, ch 71 § 83).

Entries for the budgets include a summary of estimated expenditures and receipts (i.e., debt service, permanent improvement and repairs, current maintenance and operation, state aid for teachers' salaries, state and federal aid from Smith - Hughes Funds, tuition from outside funds, poor and property taxes required). Budgets then contain a detailed projected expenditure breakdown for the year as well as the estimated receipts from all sources other than taxation. The budget forms also include the school budget laws for county boards and boards of special districts. Each form was signed by the President and secretary of the district.
