261 Statistical reports completed by City of Newark staff for the Municipal Year Book publication.
270 The 1959 to 1966 reports note the total city population, assessed value of property, basis of assessment, total bonded debt, all other debt, city tax rate, county tax rate, school tax rate, and percentage of current tax levy collected at end of the fiscal year. In 1967 the report format changed to a Municipal Year Book form. This provides the number of acres annexed, total land area, fire and police department salaries and expenditures, and annual salaries of various city officials. A separate form for 1967 shows the police department number of employees, personnel strength levels, recruitment practices, police-community relations program, and citizen complaints. The 1970 report is about city employee benefits. Statistics are for gross payroll, number of employees, part-time employees, average hourly rate, basic work schedule, overtime pay, longevity pay, vacation, sick leave, death benefit coverage, medical coverage, workmen's compensation, educational expenses, and uniforms.
