261 Records document the history of the development and revision of zoning districts.
270 Files include accounts of complaints received and action taken regarding alleged zoning violations and may also provide documentation on the development of amendments to the zoning map and related ordinances. Files contain original application; property description; official exhibits; record of fee payment; and correspondence. Files may include the following: petitions and documentation supporting the zone change; current zoning ordinances; minutes; agenda of the board; public hearing transcripts; reports; exhibits; application forms; maps; legal notices; receipts for fees; notice of decisions; photographs; and correspondence.
