241 1 cfb.  
261 Annual budget records for Delmar, Delaware and Maryland, and the town  
Water Commission.  
270 Budget records for the Delaware side are for 1979-1996, and 1976-1977,  
1980-1984 for the Maryland side. There are separate folders for the  
Water Commission, 1975-1984, but later Commission budgets may be found  
in the town budget files. Files include working papers, estimated  
revenues, proposed budgets, and budget reports. These records show the  
various spending accounts, approved previous year amounts, proposed  
amounts, and amounts spent and unspent for each category. Later budget  
files may have a billing rate schedule, water service rates, utility  
abatement policy and procedures, newspaper clippings, list of bank  
accounts, list of vehicles, master vendor list, master chart of  
accounts, and water and sewer budgets. A Planning and Zoning Commission  
budget for 1976-1977 is also present.
