261 Videos of the river taken to promote economic development.
270 There are forty-two videos in total, Thirty-eight are raw footage of interviews with DNREC, DuPont, and environmental organization representatives with footage of the Nanticoke river and water processing plants. The other four videos are final copies of The Nanticoke Watershed, a fifteen minute film. Also included is a notebook with short descriptions of each tape project, progress reports of the film making, and the film scripts. The tapes are in U-matic 3/4 inch format. One DVD copy of the master tape (created 03/2004)is also in this collection.
