261 Records maintained on the transportation of students to school.
270 Part of the series is in-house publications detailing the amounts
allowed in school bus contracts. The record includes an explanation of
the factors used in developing the transportation formula, factors
included in the fixed cost and operating allowances, and instructions
for computing the contract transportation formula. Operation allowances
for regular routes in the regions of south of the canal, north of the
canal, and the city of Wilmington had different allowances. For each
region were listed the operation allowances for regular routes,
operation allowances for midday routes, attendant wages, and driver
wages. A form for computing the route allowance was also included.
Also present is copies of correspondence, copies of legislation
effecting the formula, and handwritten notes and calculations. Other
records report on school bus accidents, route mileage, length of ride,
number of transported students, and nonpublic school stipends.
