261 Statistical reports on various areas of student racial diversity.
270 The 1992-1993 records are reports for each school. These are grade summaries, homeroom summaries, and special education summaries which list the grade, number of females and males, total students, race, and percentage for each category. The 1997-1999 data reports are for special education students. The remainder of the records are copies of statistical reports made to the Federal Office of Civil Rights.
