 261 Original drawings of railroad cars, ships, and car or ship architectural details.
 270 This collection consists of sixty-seven drawings and blueprints related to rail car construction. Ranging in date from about 1881 to 1937, the collection contains twenty-five plans and drawings for a variety of cars and equipment. Twenty-six diagrams and blueprints dealing with the interior design of railroad cars—room layouts, furnishings, and fixtures—can also be found. Both the plans and drawings and interior design items are numbered.

Ninety-six ship drawings, dating roughly from 1885 to 1937, illustrate the range of shipping constructed by Jackson & Sharp. Diagrams, plans, cut-away views and drawings of barges, tug boats, schooners, yachts, a number of other vessels, as well as ship equipment are numbered and gathered in five folders.

Also included in the collection are plans of company property dating from 1924, a map of Wilmington, and other miscellaneous drawings.
