261 Volumes used to record meeting minutes and ditch tax assessments and payments.
270 Minutes (1851-1946) usually note only the day and place of the meeting and who was elected as ditch officers. Tax accounts show the property owner, the amount they are assessed, and the amount paid. Most paid by working on the ditch.

In the middle of the first book are personal accounts of numerous items purchased from William Hill Wells, 1813-1817. Three pages relate to the Dagsborough post office, including a page of rules and a page of postage accounts.
