261 Primarily publications and reports regarding agriculture in Delaware and agricultural research from the University of Delaware.
270 The publications in this group address agricultural topics in Delaware. Organized by subject, a majority of this collection documents research at the University of Delaware Agricultural Experiment Station, Agricultural Extension Service and Cooperative Extension. Crops, pest and insect concerns and prevention, trends, economic conditions, livestock, dairy, poultry and general trends in agriculture are addressed in these publications. Annual reports issued by the director of the University of Delaware Agriculture programs discuss _____. Also included in this collection are programs from the Delaware State fair dating back to 1950.
