261 Photocopies of two alphabetical lists of male residents. May have been  
created to document potential voters.  
270 One list contains the names of Dover residents. It provides the name  
and in many cases their street address. Occasionally there are notations  
next to the names such as a letter "R", left, away, Del., N. C., or a  
triangle. To the right of the names are two columns with checks or a  
"o". At the end of the list is a total number of check marks for each  
column. The second list is believed to be of residents outside of  
Dover. It shows the names but no addresses and similar notations. A  
few persons are noted as being dead.
