261 Daily record of ingredients requested by the Ice Cream Foreman to be used in the manufacture of ice cream. The factory was located at 719 Walnut Street in Wilmington.
270 The two forms used, "Time Slip" and "Requisition for Material" both list the flavor and amount of ice cream produced, date, amount of various ingredients, and sometimes the cost. There are several requests for dishes and other supplies. Also present are some weekly accounts showing the day, amount of sales and cost, and amount of profit. For April 1903 there are six slips from the Soda Department showing the ingredients requested or used. Of special note is a printed waitress/waiter order form listing the various flavors of ice cream, fruit ices, and frozen fruits.
