

GETTING TO DELAWARE

No matter where you are in the Mid-Atlantic, you're never far from Delaware. Even from outside the region, transportation options make getting to Delaware both fast and simple.

Car

Driving on I-95 is the most popular way to enter Delaware. DE 1 and US 13 will guide you north and south.

- ✓ **Tip:** Smartphone apps, like DeDOT's and ParkMobile, can help you deal with traffic and parking.
- ✓ **Tip:** During summer months try Sunday or Monday for travel to the beaches.
- ✓ **Tip:** Some Delaware tolls cost more during the weekend. Use EZ Pass to get through quickly.

Train

Amtrak is your ticket to sit back, relax and soon find yourself in Delaware. Dozens of trains every day from points north and south stop at the station in Wilmington.

Plane

Regional airports (PHL, SBY, BWI, DCA and IAD) provide easy access to Delaware. For example, Philadelphia International is just 15 minutes from northern Delaware.

Boat

Take the ferry to go between Lewes and Cape May, NJ in 85 minutes. You can drive your car right onto the boat for the scenic ride across the Delaware Bay.
