Wheeler Park Donor Honored By Buckson

About 10 years ago William A. Wheeler, then working for the Pennsylvania Railroad, decided to clear away a little picnic section in a woods he owned.

He cleared the space and put up a picnic table. The woods is just outside Harrington.

The next Sunday he went to use the table and found someone else there.

Not one to be unneighborly, Mr. Wheeler went ahead a few days later and put up a second picnic bench.

But the first time he went to use it he found this table was also being used.

At this point, Mr. Wheeler thought: "If people like a picnic spot so much, I'll build a little park.

In the intervening years, he has done just that, to the point that 15,000 people visited the 25-acre Wheeler's Park last spring and summer.

Wheeler Park Donor Honored By Buckson

(continued from page one)

They enjoyed the picnic tables, and especially the amusements for the children.

The park is not a business. It's free to the public.

Some people give donations but by and large the park project is all Mr. Wheeler's own, and his generosity toward others gives him nearly a full-time job in his retirement.

It was against this background that Governor David P. Buckson made Mr. Wheeler an honorary member of the State Park Commission.

Mayor Charles L. Peck, Sr., of Harrington came along for the presentation in the Governor's office, along with William Miller, who also is retired from railroad work and is a booster of the park.

Mr. Wheeler told the Governor he starts getting the park ready in February for its opening on May 15. It stays open seven days a week until about September 15. Visitors come from all around — not just from Harrington.

Included among the facilities are a large model steam engine railroad which children can ride. Also attractions are three monkeys and a couple of burros.

The 70-foot long concrete table at the park, Mr. Wheeler told the Governor, is the longest concrete table in the country.

Another point of interest is a freak tree shaped like a horse.

Mr. Wheeler retired from railroad work in 1955 after 44 years. He will be 72 in July.

He looks well and obviously feels well. On Tuesday, he said, he was digging a ditch.

He has built a home right next to the park.

"The people of Harrington certainly appreciate it," said Mayor Peck. "There aren't many men who would go to all that trouble for others."
