Description of Item(s) Material Types	scription of Item(s) Produced for the Delaware Department of Agriculture, this 1990s video looks at the familing industry in Delaware. The first half looks at broilers, corn, and scybeans while mentioning newer and or growing industries such as forestry, livestock, honey, and crawfish. The last half of the video examines Delaware's shrinking amount of farmland, and urges that viewers think about the impact development has on farming. The video lastly mentions an initiative to get Delawareans to eat more locally produced food. They hope to accomplish this by using the logo and moto "First Rate from the First State" on packaging to identify Delaware produced food items.
